- POCKET SIZE
- SHOCK PROOF ABS HOUSING

THE BUZZ BEE

Having trouble finding your lost or buried valves? Let the Buzz-Bee show you the way! The Buzz-Bee is a new innovative product that will have you "swarming" around that lost valve in no time. This unique product will save you time and money. No need to spend a-lot of money on other locators or charge up a bundle on rental fees, let the low cost Buzz-Bee show you the way. This easy to use locator works on a very simple concept. By making and breaking the power going to the valve it creates a very loud buzz in the solenoid. This buzz is so loud that it can be heard from depths of over 8 inches deep! Take the "sting" out of finding those lost valves and get the Bzz-Bee today!
